

Option shown is with 700mm diameter top

## GRANITO ELBOW

Contemporary table design for the great outdoors

### DESIGN BRIEF

The Granito garden table takes the values of Futureglass outdoors. The innovative waterproof uv bonding technology protected under patent number GB2389883 allows the table to be used outdoors all year round. The exposed aggregate base provides this minimalist table with the stability needed for the harshest weather conditions. The Granito table features a toughened glass disc, conforming to British Standard BS 6206A, and an exposed granite base. The 316 marine-grade stainless steel column simply screws into bosses pre-bonded to the top and base for stability. This unit comes flat-packed for quick, easy assembly or dismantling without tools and is designed to enhance any outdoor environment.

### Granito table at a glance

- ◆ Stylish table for outdoor use
- ◆ 5 sizes of top from stock, custom sizes available upon request
- ◆ 316 marine-grade stainless steel column
- ◆ Option of frosted or coloured glass
- ◆ Toughened glass to BS 6206A
- ◆ Exposed aggregate base engineered for stability outdoors
- ◆ Flat-packed for easy tool-free assembly

### CHOOSE YOUR OPTIONS

The Granito table is available as a standard unit with a 316 marine-grade stainless steel column and five tabletop dimensions, with the option of frosted or coloured glass. All glass sizes can be customised with colours, sandblasting (plain, patterned), or even with a logo to suit.

### CUSTOMISE... DIFFERENT SIZES, COLOURS

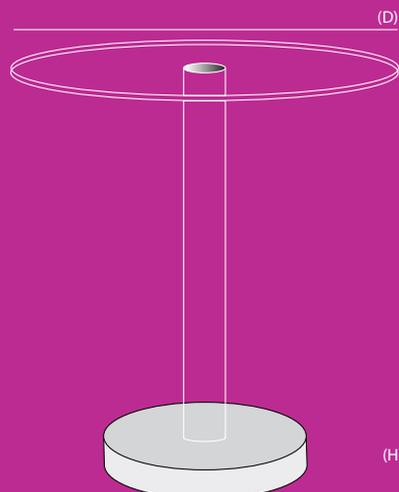

If you want even more choice, we can customise the Granito table with different sizes, colours, finishes or materials.

Contact Futureglass for more details.

### TABLE DIMENSIONS

Round

| Diameter (D) | Height (H) |
