

Thank you for purchasing the **Granito Elbow** from Futureglass!

The design of Granito allows easy tool free assembly by a competent adult.

The simple tool free assembly means that the table can be constructed in the shortest of times.

Please take a few moments to read these instructions to get the most from the table.

ASSEMBLY INSTRUCTIONS

1. Unpack all of the components.
2. Screw the threaded centre spindle of the table through the concrete base, into the threaded plate on the underside of the base. The plate should be flat against the concrete. Now slide the tube over the threaded rod.
3. The top is now ready to be screwed onto the threaded rod. Simply insert the boss on the underside of the tabletop into the tube and then rotate the top clockwise to tighten the table together.
4. Adjust the nylon feet on the underside of the base to level the table. These provide protection for the table and the floor it is going onto.

The glass supplied is toughened to BS6206A for safety. In order to maximize this safety; please follow the following precautions.

- | | |
|--|---|
| 1. Never drag the table - Always lift with assistance | 7. Take care in positioning the table. |
| 2. Owing to the weight of the concrete base, never move the table by lifting the top. Always lift by the heavy base and tube | 8. Never place hot pans onto the table. |
| 3. Replace any damaged glass with that of identical specification. | 9. Avoid subjecting the table to impact. |
| 4. Never place heavy objects onto the table. | 10. Never sit or stand on the table. |
| 5. Use a suitable non-abrasive glass cleaner. | 11. The table is not suitable for rough use |
| 6. Take care when moving the table. | 12. In the unlikely event of breakage, a competent person must clear thoroughly the area of sharp shards of glass, which may cut. |
